What measures are in place to ensure compliance with the SWMS?			
Person responsible for reviewing SWMS control measures:		Date SWMS received by reviewer:	
How will the SWMS control measures be reviewed?			
Review date:		Reviewer's signature:	
What are the tasks involved?	What are the hazards and risks?	What are the control measures?	
List the work tasks in a logical order.	Identify the hazards and risks that may cause harm to workers or the public.	Describe what will be done to control the risk. What will you do to make the activity as safe as possible?	
Pre-start daily inspection	- Death / Serious injury	<ul style="list-style-type: none"> • Only licensed operators to use Boom Lift • Carry out daily inspection / checks as per manufactures operating manual and Operator Daily Safety Checks on the cover of the log book. • Read and familiarise yourself with safety stickers on machine • Check / Familiarise yourself with the operation of platform emergency decent and/or retrieval system from machines ground controls • Record in the log book and sign off by person making entry • Report any defects or damage to supervisor immediately. Do not use machine until these are repaired / fixed • Place 'DANGER do not use' tag on machine to prevent use by others 	
Check work area for operational hazards	- Death / serious injury	<ul style="list-style-type: none"> • Keep away from back filled trenches / excavations • Use only on flat firm surfaces and the machine is level to within manufactures specifications 	

		<ul style="list-style-type: none"> • When working on suspended slabs, competent person to verify slab can take weight of machine. • Use spotter when required. • Check proximity of overhead power cables, and check with power supply authority for safe distance to be maintained.
Operating EWP	<ul style="list-style-type: none"> - Unauthorised / unqualified operator EWP not maintained in accordance with manufactures specifications Fall from platform Tip machine over, collision / injury 	<ul style="list-style-type: none"> • Operators of EWP to have certificate of competency for EWP. • Safety harness to be worn and connected at all times when using boom. • EWP to be maintained in accordance with the manufactures / suppliers requirements • Never stand or sit on kick boards, handrails or mid rails, ensure gate is securely closed • Ensure tyres are inflated to correct pressure, NEVER operate when wind speeds exceed 12.5m/sec. If outriggers fitted ensure they are fully extended and on a solid bearing • Ensure you look up, down, forward, backwards, left and right when driving
Working from EWP	<ul style="list-style-type: none"> - Tip over, injury to people below - Fall from platform - Tools falling 	<ul style="list-style-type: none"> • Do not use EWP as a crane, do not overload the platform, observe and do not exceed SWL (safe working limits) • Never use to pull or push other objects • Ensure all tools and materials are safely stored • Where tools could fall to lower level, tools to be secured by lanyard to wrist or platform / basket • Set up exclusion zone around the base of boom lift and appropriate signage to be in place where deemed necessary • Keep away from pinch points • Safety harness to be worn and connected at all times whilst in

		the EWP basket <ul style="list-style-type: none"> • Never enter or exit platform while elevated • Never use ladders or other objects in the EWP to gain additional height
Securing EWP after use	- Unauthorised use	<ul style="list-style-type: none"> • Lower platform at the end of shift, position in safe location, remove keys and secure
Refuelling the EWP	<ul style="list-style-type: none"> - Fire - Slips, trips and falls - Spills - Contact with chemical - Inhaled petrol vapour 	<ul style="list-style-type: none"> • Equipment it be turned off and shut down • Do not use mobile phones • Avoid sources of ignition, heat, sparks • Ensure fully charged carbon dioxide, Dry chemical or foam extinguisher is in close proximity when refuelling • Ensure funnel or nozzle attachment is used when refuelling • Avoid contact with eyes, eye protection to be worn • Over spills to be immediately cleaned up • Remove any contaminated clothing and wash prior to re-use • Do not intentionally inhale vapours.
Charging batteries	- Electrocution	<ul style="list-style-type: none"> • Use only earth leakage supply • Extension lead is to be inspected prior to use, and elevated off the ground using insulated hooks or stands • Extension lead is to be tested and tagged 3 months • Keep away from water and damp areas
